BIOPHARMACEUTICS & DRUG DISPOSITION
Biopharm. Drug Dispos.

Contents

Volume 22, Numbers 1–9

ISSUE 1 JANUARY 2001

ORIGINAL PAPERS

Investigation of 5-FU Disposition After Oral Administration of Capecitabine, a Triple-prodrug of 5-FU, Using a Physiologically Based Pharmacokinetic Model in a Human Cancer Xenograft Model: Comparison of the Simulated 5-FU Exposures in the Tumour Tissue Between Human and Xenograft Model
Y. Tsukamoto, Y. Kato, M. Ura, I. Horii, T. Ishikawa, H. Ishitsuka and Y. Sugiyama 1

Bioequivalence Assessment of Azomycin® (Julphar, UAE) as Compared to Zithromax® (Pfizer, USA) — Two Brands of Azithromycin — in Healthy Human Volunteers
N. M. Najib, N. Idkaidek, I. Ghanem, I. Admour, S. M. Alam, Q. Zaman and R. Dham 15

Transcellular Transport of Genistein, a Soybean-derived Isoflavone, Across Human Colon Carcinoma Cell Line (Caco-2)
M. Oitate, R. Nakaki, N. Koyabu, H. Takanaga, H. Matsuo, H. Ohtani and Y. Sawada 23

Pharmacokinetics of Dicrofenac after its Intrarectal and Intracolostomal Administration to Rabbits with Rectal Resection or Colostoma Construction
K. Nagasawa, H. Nakanishi, T. Matsuda, K. Takara, N. Ohnishi, T. Yokoyama and S. Fujimoto 31

SHORT COMMUNICATION

***In Vitro* Protein Binding Studies with BMS-204352: Lack of Protein Binding Displacement Interaction in Human Serum**
R. Krishna, M. Yao, D. Kaczor, N. Vachharajani and N. R. Srinivas 41

ISSUE 2 MARCH 2001

ORIGINAL PAPERS

Stereoselective Metabolism and Pharmacokinetics of Tegafur
B. D. Damle, N. I. Narasimhan and S. Kaul 45

***In vitro*/*In vivo* Scaling of Alprazolam Metabolism by CYP3A4 and CYP3A5 in Humans**
N. Hirota, K. Ito, T. Iwatsubo, C. E. Green, C. A. Tyson, N. Shimada, H. Suzuki and Y. Sugiyama 53

Pharmacokinetics of Andolast after Administration of Single Escalating Doses by Inhalation in Mild Asthmatic Patients
S. Persiani, M. D'Amato, F. Makovec, S. H. Arshad, S. T. Holgate and L. C. Rovati 73

The Pharmacokinetics of Ethosuximide Enantiomers in the Rat
J. Mifsud, P. S. Collier and J. S. Millership 83

ISSUE 3 APRIL 2001

ORIGINAL PAPERS

Linezolid Absolute Bioavailability and the Effect of Food on Oral Bioavailability
I. R. Welshman, T. A. Sisson, G. L. Jungbluth, D. J. Stalker and N. K. Hopkins 91

Distribution of Ifosfamide and Metabolites between Plasma and Erythrocytes
T. Kerbusch, V. M. M. Herben, M.-J. I. Jeuken, J. Ouwerkerk, H. J. Keizer and J. H. Beijnen 99

Subacute Toxicities and Toxicokinetics of a New Erectogenic, DA-8159, after Single and 4-week Repeated Oral Administration in Dogs
H. J. Shim, E. J. Lee, J. H. Kim, S. H. Kim, J. W. Kwon, W. B. Kim, S.-W. Cha and M. G. Lee 109

Dose-dependent Pharmacokinetics of a New Reversible Proton Pump Inhibitor, DBM-819, after Intravenous and Oral Administration to Rats: Hepatic First-pass Effect
E. J. Kim, S.-O. Kim, D. H. Lee, H. Lim and M. G. Lee 119

Quantification of Urinary Excretion of Ethosuximide Enantiomers and their Major Metabolites in the Rat
J. Mifsud, I. S. Millership, P. S. Collier, R. Morrow, J. T. G. Hamilton and W. C. McRoberts. 129

ISSUE 4 MAY 2001

ORIGINAL PAPERS

Estimation of Absorption Rate of α-Human Atrial Natriuretic Peptide from the Plasma Profile and Diuretic Effect after Intranasal Administration to Rats
M. Miyamoto, T. Tsukune, S. Hori, T. Hayashi, H. Natsume, K. Sugibayashi and Y. Morimoto 137

Pharmacokinetics and Pharmacodynamics of Intravenous Bumetanide in Mutant Nagase Analbuminemic Rats: Importance of Globulin Binding for the Pharmacodynamic Effects
E. J. Kim and M. G. Lee 147

CYP3A Inductive Potential of the Rifamycins, Ribabutin and Rifampin, in the Rabbit
A. Weber, M. Kaplan, S. A. Chughtai, L. A. Cohn, A. L. Smith and J. D. Unadkat 157

Folinic Acid Protects Against Suppression of Growth by Methotrexate in Mice
M. P. Iqbal, F. Sultana, N. Mehboobali and S. Pervez 169

ISSUE 5 JULY 2001

ORIGINAL PAPERS

Evaluation of a Limited Sampling Method Used to Determine the Bioequivalence of Highly Variable Drugs with Long Half-Lives
A. J. Jackson 179

Effect of Age and Single Versus Multiple Dose Pharmacokinetics of Letrozole (Femara®) in Breast Cancer Patients
C. U. Pfister, A. Martoni, C. Zamagni, G. Lelli, F. De Braud, C. Souppart, M. Duval and U. Hornberger. 191

Pharmacokinetics and Tissue Distribution of the Anticholinergics Tiotropium and Ipratropium in the Rat and Dog
A. Leusch, B. Eichhorn, G. Müller and K.-L. Rominger 199

Intranasal Absorption of Sumatriptan and Naratriptan: No Evidence of Local Transfer from the Nasal Cavities to the Brain Arterial Blood in Male Rats
N. Einer-Jensen, L. Larsen, S. Deprez, E. Starns and S. Schwartz. 213

ISSUE 6 SEPTEMBER 2001

ORIGINAL PAPERS

Nonlinear Pharmacokinetics of TAK-044, a New Endothelin Antagonist, in Rats
T. Takeuchi, Y. Tagawa, K. Hagihara, Y. Maeshiba, K. Yamashita, R. Tsukuda and Y. Yoshimura 221

Pharmacokinetics of E-6087, a New Anti-inflammatory Agent, in Rats and Dogs
R. F. Reinoso, R. Farrán, T. Moragón, A. García-Soret and L. Martínez 231

Nonstationary Disposition of Valproic Acid During Prolonged Intravenous Infusion: Contributions of Unbound Clearance and Protein Binding
T. L. Arens and G. M. Pollack 243

Paclitaxel Pharmacodynamics: Application of a Mechanism-Based Neutropenia Model
G. J. Fetterly, J. M. Tamburlin and R. M. Straubinger 251

ISSUE 7–8 OCTOBER–NOVEMBER 2001

Special Topic Issue:
Analytical Development
Guest Editor: **Myung G. Lee**

Guest Editorial
M. G. Lee 263

REVIEW ARTICLES

Use of Affinity Capillary Electrophoresis for Characterizing Pharmaceutical Colloidal Vehicle Systems Thermodynamically
N. Reinhard and Y. Mrestani 265

Biomedical Applications of Capillary Electrophoresis with Laser-Induced Fluorescence Detection
X. Páez and L. Hernández 273

Chiral Separation by Chromatographic and Electromigration Techniques. A Review
G. Gübitz and M. G. Schmid 291

Capillary Electrophoretic Analysis of Proteins and Peptides of Biomedical and Pharmacological Interest
P. G. Righetti 337

Analysis and Screening of Combinatorial Libraries using Mass Spectrometry
Y. G. Shin and R. B. van Breemen. 353

ISSUE 9 DECEMBER 2001

ORIGINAL PAPERS

Flunisolide HFA vs Flunisolide CFC: Pharmacokinetic Comparison in Healthy Volunteers
A. Nolting, S. Sista and W. Abramowitz 373

Amlodipine Bioequivalence Study: Quantification by Liquid Chromatography Coupled to Tandem Mass Spectrometry
M. Carvalho, C. H. Oliveira, G. O. Mendes, M. Sucupira, M. E. A. Moraes and G. De Nucci 383

A Critical Evaluation of the Brain Efflux Index Method as Applied to the Nitric Oxide Synthase Inhibitor, Aminoguanidine
J. J. Raybon and K. M. K. Boje 391

Effect of Smoking on Single Dose Pharmacokinetics of Phenobarbital
A. Mirfazaelian, F. Jahanzad, M. Tabatabaei-far and M. Mahmoudian 403
